

NEW PRODUCT RELEASE

Boa 2000

Powered by EXM

Remote Controlled Electric Monitor

April 2017

Elkhart Brass adds a wireless remote controlled monitor in the 2000 gpm flow segment with the release of the Boa 2000 *Powered by EXM*. Developed specifically for the limited package space of aerials and platforms, the Boa 2000 combines the firefighting power of master stream flow and the reliable performance of EXM control technology.

The efficient 4" vaned waterway and 3.5" discharge matched with an SM-2000E Master Stream nozzle delivers an effective stream while the **Power of the EXM** provides all of the user-programmable options, including travel limits, oscillation, stow and keep-out zones. The Boa 2000 design also includes an additional 30 degrees of extended vertical travel allowing for enhanced maneuverability of the water stream.

Boa 2000 Model 7451 ----- P/N 00007451
List price \$7985.00
